

Cosmos Rice Washer

cosmos RW

The **COSMOS Rice Washer** is a high-efficiency, water-pressure-operated solution designed for fast and hygienic washing of rice and lentils in bulk kitchens. The continuous process of this function ensures that the products get cleaned well.

Construction & Design:

- Fully stainless steel construction for hygiene and durability.
- Washing tank equipped with an ejector pipe circulation system.
- Drain funnel provided below with collection drum.
- SS water inlet and drain valves for smooth operation.

Key Features:

- Simple and efficient hydraulic circulation process.
- Operates with water pressure for effective washing.
- Faster, cleaner, and more hygienic than manual washing.
- Ensures uniform cleaning of rice and lentils.
- Reduces labour and processing time in bulk kitchens.

Build for: Hotels • Restaurants • Central & Cloud Kitchens • Industrial Canteens • Caterers • Institutional Kitchens

Application: Rice & Dhal washing

Capacities: 22 and 50 kg per load, with washing time of 3 to 7 minutes per load

Technical Specifications:

Model	RW 22	RW 50
Capacity (L)	22kg Rice	50kg Rice
Electrical	Requires 0.5HP Pump	Requires 1.5HP Pressure Pump
Duration / Batch	3 - 5 minutes	5 - 7 minutes
Dimension (WxDxH)	800 x 840 x 970mm	1150 x 810 x 1150mm
Net Weight	25kg	30kg
